## Your Monthly Dose of Awesome

October and November flew by in the blink of an eye! Doesn't matter what is happening in the world lately, your awesome ideas kept us focused and optimistic. Please keep them coming! We can't wait to support more awesome ideas :)

We are thankful to be part of this wonderful community. Let's stand together and create more understanding, compassion and awesomeness!

- Cheers from The Awesome Trustees

### NOVEMBER WINNER:

[Azura Marine Earth](#) is a social enterprise that aims to reduce pollution in coastal areas of Southeast Asia by converting traditional boats to run on solar power. Our grant will help Azura build solar boats using local talent and materials that can be used for eco-tourism, transportation and other activities. This will protect sensitive marine environments as well as support local livelihood.

### OCTOBER WINNER:

[Off the Beaten Tracks: Southeast Asia](#) will document the lives of ethnic minorities in Southeast Asia through photography. Our grant will allow Nathaniel Soon to backpack across Myanmar, Cambodia, Thailand, Laos and Vietnam in order to explore and capture the cultures, customs and traditions of various ethnic tribes. The resulting images will offer a wealth of knowledge and understanding about our region's beauty and heritage.

AREN'T THOSE IDEAS AWESOME?

is very important to make sure we understand your vision. Use simple and straightforward language. We know you want to impress, but don't let your wonderful idea gets lost in lengthy and flowery descriptions.

## Awesome around the World

Funded by Awesome Seattle, Peacemaking Photo Project presents pictures of Muslim women and non-Muslim women engaging in similar activities to facilitate discussions about our differences and similarities. A powerful way to use photography to break down stereotypes and fight against Islamophobia!
